JS INSTITUTE
Open Education & Development Group

Statement of Achievement

Joshua Olagunju

*has successfully achieved student level credential for completing the **CSS Essentials** course, provided by Cisco Networking Academy in collaboration with JS Institute.*

The graduate is able to proficiently:

- *Apply CSS syntax, selectors, and properties to style web pages effectively.*
- *Use the CSS box model, positioning techniques, and spacing properties to control layout and design.*
- *Implement responsive web design using media queries, Flexbox, and CSS Grid.*
- *Enhance user experience with CSS transitions, animations, and interactive effects.*
- *Optimize CSS performance by using shorthand properties, variables, and preprocessors like Sass or Less.*
- *Ensure web content is accessible and user-friendly through proper contrast, font sizes, and usability principles.*
- *Understand and apply CSS frameworks like Bootstrap to speed up development.*
